

## EUROSCICON CONGRESS ON OBESITY AND DIABETES-PAST CONFERENCE REPORT

**MICHAEL STARK**

Professor, Obstetrics and Gynecology, ELSAN Hospital Group, France, E-mail: [mstark@nesacademy.org](mailto:mstark@nesacademy.org)

EuroSciCon joint events on Obesity and Nutritional Biochemistry (2019) hosted by EuroSciCon Ltd. took place during April 14-15, 2019. It was organized by EuroSciCon Ltd. and generous response was received from the Editorial Board Members of EuroSciCon Ltd. Journals as well as from eminent scientists, talented researchers, and young student community. Researchers and students who attended from different parts of the world made the conference one of the most successful and productive events in 2019 from EuroSciCon Ltd. The two-day program witnessed thought provoking keynote and plenary presentations from experts in the field of Obesity and Nutritional Biochemistry highlighting the theme, "New Emerging Drifts and Tactic to Challenge Obesity and Eating Disorder"

Journals as well as from eminent scientists, talented researchers, and young student community. Researchers and students who attended from different parts of the world made the conference one of the most successful and productive events in 2019 from EuroSciCon Ltd. The two-day program witnessed thought to provoke keynote and plenary presentations from experts in the field of Obesity and Nutritional Biochemistry.

Our Attendees obtained the updated and current research development information in the arena of Obesity and Nutritional Biochemistry that they were seeking, and that their role in the field has been enhanced via their participation and communication with other experts. They were able to take part in all the sessions and take advantage of the tremendous advancements in Obesity and Nutritional Biochemistry that scientists are working with.

The meeting was carried out through various sessions, in which the discussions were held on the following major scientific tracks:

Obesity and Eating Disorders, Obesity Counselling, Childhood Obesity, Clinical Nutrition, Eating Metabolic Disorders, Genetics Of Obesity, Childhood Obesity And Effect, Bariatric Surgery, Nutrition & Healthy Diet, Eating Disorders In Children, Digestive Diseases And Therapy, Eating Metabolic Disorders, Weight Loss Medication And Therapies

The highlights of the meeting were from the Eminent

Keynote Lectures from

- Dr. de Graaff
- Mona Fouad
- Małgorzata Wójcik
- Chowdhury S Ferdous

Obesity and Nutritional Biochemistry 2019 played an important role in promoting multidisciplinary interactions between science and technology to enhance research in Obesity and Nutritional Biochemistry. The program covered current and emerging research innovations in the field of Obesity and Nutritional Biochemistry.

We would specially thank the Moderators of Obesity and Nutritional Biochemistry 2019 Ms. Batra M. Aikaterini, Greek Army Biological Research Center, Greece for their contribution to the conference.

We are obliged to the various delegates from companies and institutes who actively took part in the discussions.

We sincerely thank the Organizing Committee Members and Editorial board of Obesity and Nutritional Biochemistry 2019 for their gracious presence and continuous support throughout the proceedings of this event. With the valuable feedback and generous response received from the participants of the event, EuroSciCon Ltd. would like to announce the commencement of "Obesity and Diabetes Research" during November 30-01 December, 2020, at Valencia, Spain.
